

CROSSING THE EVENT HORIZON THE GROUND-BREAKING THEORY OF PHYSICIST NASSIM HARAMEIN

MULTIMEDIA PRESENTATION WITH
BEVERLY ANNA FARRAND, GF EMISSARY

COME AND BE TRANSFORMED AS A RESULT OF THIS
FASCINATING SCIENTIFIC PRESENTATION THAT
INCLUDES ADVANCED PHYSICS,
ANCIENT KNOWLEDGE AND PHILOSOPHY

And it's not just for physics enthusiasts — The lecture presents this astonishing theory in layperson's terms that will lead you to a new paradigm of the nature of reality. Regardless of your scientific background, this riveting presentation will dramatically change your view of the universe — and your existence in it!

Learn how this new all-encompassing theory has parallels with ancient codes left in the world's oldest documents and monuments. These include the Bible, the Koran, the Torah, the I Ching, the Mayan Tzolkn, and the ancient pyramids and temples around the world.

The journey continues through the history of humanity's evolution, pointing out the inconsistencies in our concepts of physics that have prevented us from understanding this view of creation and the universe. Ever since physicists encountered the contradictions of Einstein's Field Equations and Quantum Mechanics, science has sought one elegant Unified Field theory that would explain everything. Hamein, with the help of his coauthor Dr. Elizabeth A. Rauscher, has produced just such a unified theory. **...the holy grail of physics!**

Hamein's work has far-reaching implications for all fields of scientific inquiry from theoretical physics, cosmology, quantum mechanics, biology, geology and chemistry, archaeology and anthropology as well as answers to spiritual questions and the nature of religion. An exciting picture develops: one that may prove to be the **most important scientific, philosophic and technologic discovery of our time.**

Celebration of Love 2009

THURSDAY FEBRUARY 12th 2009

1:30 - 5:30 PM

South River Highlands Country Retreat
266 Highland Farm Road Buena Vista, Virginia 24450

Call: 703.709.9029 or 540.461.1401

www.southernriverhighlands.com/event.html

Cost: \$25
