THE SHAPE OF LOVE

the work of Japanese Dr. Masaru Emoto
(Messages From Water)

presented by Hado Institute's Emissary Linda Smith

The cutting edge work of Japanese Doctor of Alternative Medicine, Dr. Masaru Emoto, will touch your heart. Ms. Smith will share a multi-media experience of Dr. Emoto's revolutionary understanding of life & consciousness which provides answers to the most profound questions of existence. In a series of experiments in which words were shown to water in order to see possible changes in water crystal formations, the most beautiful crystal resulted from exposing water to the words 'love & thanks'.

This new science presents 'hado', invisible energy, in a manner that we can see – photographs of frozen water crystals. Half of the Earth is water & we are mostly water. We are vibration protected in water. We are designed to vibrate & must receive & give resonating vibrations from others to live.

LINDA SMITH has been trained by the Hado Institute to lead workshops to share Dr. Emoto's work with the world. Having survived serious injury twice & recovering fully from being partially paralyzed, Linda found the gift in monitoring her thoughts & understanding Hado (invisible energy). She has had to lean into her faith, her heart & her intellect, & walk through many trials to overcome all obstacles. Linda accomplished this with astonishing brilliance, hope & unconditional love. Her experience of the power of thought & word in the healing of her own life coupled with the excitement of reading Dr. Emoto's books led her to the training at the Hado Institute.
